EXPERIENCE

Web Development - Roto Donations Portal

Rotaract Club, NITK Chapter

May 2022 – Present

NITK

- Technologies Used : HTML, CSS, JavaScript, Node.js, Express.js and MongoDB
- Developed a responsive web based application that automates the basic activities for a donations portal like list of organizations, goals reached, money collected so far, organization details etc
- The website also deliver services to the managing team by maintaining the list of organizations, having a track of payments made and details of the donors, accounts.
- Integrated Paytm payment gateway for carrying out transactions.

PERSONAL PROJECTS

Quiz Application

September 2021 – October 2021

- Technologies Used : Python with Django, HTML, CSS, Sqlite database
- Developed a full stack web application for conducting an online quiz.
- This application stores all the questions, options and correct answers on a sqlite database
- After, the user submits their response, the application displays which are the right and wrong answers with correct solutions and a final grade sheet

Sports Tournament Management Application

March 2022 – May 2022

- Technologies Used : HTML, CSS, JavaScript, PHP
- Developed a full-stack web application for the coordination and management of an inter college sports fest
- This application will be capable of scheduling the timings for various sporting events for different categories and making sure that the events do not clash
- This application also ensures that there is fair evaluation of points and the score tables remain upto date after each of the events
